Jangili Ch M Srinivasa Vara Prasad

Address: Chirala, Bapatla District, Andhra Pradesh – 523155
Email: jangilichiranjeevi2@gmail.com Phone: +91 7075897455
LinkedIn: linkedin.com/in/chiranjeevi-jangili-213097315 GitHub: github.com/chiru2710

Professional Summary

Computer Science graduate with hands-on experience in full-stack web development and backend systems. Proficient in React, FastAPI, Python, and MySQL, with experience in building RESTful APIs, implementing secure authentication, and deploying cloud-based applications.Seeking an entry-level Software Engineer or Full-Stack Developer role in a growth-oriented organization to contribute to scalable, high-quality software solutions while continuously learning and growing professionally.

Education

St. Ann's College of Engineering and Technology 2022 – 2026
B.Tech in Computer Science and Engineering (Honors) – **CGPA: 8.6**

Sri Chaitanya Junior College 2020 – 2022
Intermediate – MPC – **75%**

Sri Chaitanya High School 2019 – 2020
10th Standard – **98%**

Technical Skills

- **Programming Languages:** Python, JavaScript
- **Frontend Technologies:** HTML5, CSS3, React.js, Bootstrap
- **Backend & APIs:** Django, FastAPI, RESTful APIs
- **Databases:** MySQL, MongoDB
- **Core CS Concepts:** OOPs, DBMS, SDLC, Data Structures (Basics)
- **Tools:** Git, GitHub, Postman, VS Code
- **Deployment:** Vercel, Render, Railway

Projects

Online Restaurant Management System
Tech Stack: React, FastAPI, MySQL
Live: Project Link **GitHub:** Repository

- Designed, developed, and deployed a full-stack web application using RESTful architecture.
- Implemented user registration, login, cart, and order management functionalities.
- Integrated secure authentication using password hashing and database validation.
- Developed and optimized backend REST APIs for efficient handling of users, orders, and menu data.
- Deployed the application on cloud platforms with proper CORS configuration and testing.

Financial Analytics Driven by AI
Tech Stack: Python, Flask, Machine Learning
Live: Project Link **GitHub:** Repository

- Developed an AI-powered financial analytics system for automated data processing.
- Implemented machine learning–based risk prediction models for decision support.
- Designed interactive dashboards for data visualization and analytical insights.
- Ensured modular backend architecture to improve maintainability and scalability.
- Optimized backend performance for efficient data handling and model execution.

Certifications

- Oracle AI Foundations Associate – Oracle University
- Agentforce Specialist – Salesforce
- NPTEL – Introduction to Internet of Things
- NPTEL – Introduction to Large Language Models
- NPTEL – Discipline Star Award (Computer Science and Engineering)
- Web Development – ANNAPOORNA INFO TECH

Achievements

- Recognized as an NPTEL Discipline Star for completing multiple NPTEL courses with excellence.
- Actively contributed to technical club activities and played a key role in organizing major college fests.
- Participated in college-level hackathons and competitive coding contests.
